His Recreation

J. Eakin Gadsby

J. Eakin Gadsby of Washington, D. C., has made his pile in real estate. He is over 70, and still has active management of his office. But Mr. Gadsby's avocation is more interesting than his business activity, and probably stands only as an unique recreation. He spends most of his time ridding the capital of unwelcome cats and pigeons, a service he performs free of charge from pure joy of marksmanship, with a .22-calibre, single shot rifle, which he presented to his wife as a present twenty years ago, and with which he never misses a shot. He has a perpetual permit to shoot anywhere he pleases in the District of Columbia, and the police call on him when anybody in the district asks for relief from stray dogs, cats or pigeons. Recently he killed nineteen pigeons from the floor of the reading room of the Congressional library, and incidentally damaged not a single fresco on the ceiling. The rifle which he is using in the photograph has been fired more than 3,500 times.

PROSPECTS FOR RECRUITS GOOD

SERGEANT HENDERSON SAYS HE EXPECTS TO GET AT LEAST TWELVE SOLDIERS FROM KLAMATH COUNTY

Sergeant S. Henderson, United States army recruiting officer, who is here for a week or more, says there are fair prospects of obtaining in Klamath county several recruits for the army. While he has not accepted any men, he has several good prospects in view and hopes to send at least a dozen men to the army before he leaves this city.

Sergeant Henderson says there are several good openings in the medical department of the army now for men who are pharmacists or men who have a knowledge of cooking. While all recruits will be enlisted as privates, provisions have been made whereby men who can qualify as pharmacists will be promoted to sergeants and the competitive examination for sergeant first class, held every year, is open to all sergeants who have served one year in that grade. All men who have a knowledge of cooking will be appointed cooks as soon as they have demonstrated their ability.

90 Per Cent Criminals of U. S. Are Bachelors

- Ninety per cent of criminals are bachelors.
- Half of married men who become crooks have children.
- Women who take up crime are single or separated from their families.
- Women crooks will not tell the truth.
- If a married man gets into trouble he generally commits a real crime, not a misdemeanor.
- The way to lessen crime is to advocate early marriages.

United Press Service CLEVELAND, O., Aug. 14.—After an investigation of 400 criminal cases, James J. Lind, Cleveland chief police prosecutor, has found out that nine-tenths of all crooks are unmarried. Two-thirds of the men jailed were between the ages of 21 and 30, according to his figures, available here today.

"It seems that conditions in unmarried life tend to make men criminals, or that persons with criminal instincts are inclined not to marry," concluded Ling after his investigation. "In 400 cases which passed through my office there was no definite economic condition that would result in crime. Only about half of the married prisoners had children, and many of the married ones were separated from their families.

"As a rule, women who take up crime are also single or at least separated from their husbands or families. This is hard to prove, because women prisoners are not inclined to tell the truth. When a woman lands in jail she generally claims to be married, and

says if her husband hears of her predicament he will forsake her forever. She also claims to be the mother of several small children, dependent on her care—all of which, nine times out of ten, is untrue. "If a married man gets into trouble he generally commits a real crime, not a misdemeanor. If a married man with children gets behind the bars, it is usually money troubles which have placed him there. But if any particular class of the human family is a menace to the rest, unmarried men are the guilty ones. The way to lessen crime is to advocate early marriages. What a man needs to keep him out of trouble is good home environment. "If mothers realized this they would cease opposing early marriages."

HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons. A quarter pound of limestone phosphate will cost very little at the drug store but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside bathing will have them both looking and feeling better in every way.—Ad. To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact, to feel your best, day in and day out, just try inside bathing every morning for one week. Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast. (Paid Advertising)

DONS OVERALLS TO SEE MINERS

SAID THAT GENERAL CHARGES BY HUGHES AGAINST ADMINISTRATION TO BE BACKED BY SPECIFIC ONES

United Press Service HELENA, August 14.—Clad in overalls, Charles E. Hughes descended 2,800 feet to see the copper mine at Butte and talk with the miners.

It has been indicated that Hughes' general charges of democratic inefficiency will be backed with specific charges when the democrats begin their attack next month.

His voice is stronger, and his old gestures have been revived. In his speech here he criticised the administration's Mexican and foreign policies, its preparedness stand and the Underwood tariff.

Hughes accused the democrats of sectionalism, saying the South dominates important committees handling all "pork" bills.
